Press Release

ELESYS North America receives coveted Triple Award from Honda of America Mfg., Inc for the third consecutive Year.

SUWANEE, Georgia, April 23, 2009 – Elesys North America announces that [Honda of America Mfg.](http://www.honda.com), Inc. awarded the coveted triple award for superior quality, deliver, and productivity for the 3rd straight year. Honda has over 600 North America Suppliers and Elesys was the only recipient of the triple award in 2008. Honda presented this award to Elesys during their annual Supplier Conference in Birmingham, AL on April 16, 2009.

ELESYS' automotive electronic safety systems are featured in a variety of vehicle models, including SUVs and passenger cars, for several vehicle manufacturers in North America. With a 5-Star crash rating given to several vehicles equipped with its automotive electronic safety systems millions of drivers can rely on ELESYS' passive and active safety systems: Occupant Sensing System (SeatSentry™), Passenger Sensing Systems, Occupant Passenger Detection System, Airbag Sensors and Controllers, Adaptive Cruise Control, All-Terrain Vehicle Transmission Controls, Anti-Lock Brakes, Electronic Power Steering, Traction Control System, and Vehicle Stability Controls. ELESYS has proven it delivers a high standard of quality.

"We understand that when you are building a safety product, good is simply not good enough. We strive to be the best in all areas of our operations in order to provide a product to our customers that works every time," says Matt Williams Elesys North America's Senior Manager of Supply Chain Management and Manufacturing. Akio Kobayashi, Elesys' President remarked, "Receiving the triple award for the third consecutive year is an honor and a testament to our experienced and dedicated associates that work at our company. People, process, and technology form the foundation of our success"
